** Additional **EAL supports and fees** are subject to change in any and all categories. Student must have previously studied Canadian (or comparable) curriculum for the last **two years.***

Parents with work/study permit:

Qualifying Factors for the Reduction in Tuition and Provincial Government Grant:

In order to fall into this category, families must provide the following to qualify for acceptance:

** **Copy of your work/study permit must be valid for at least one year.** A shorter timeframe does not meet qualifications for the government grant to be applied to tuition and we must have proof of re application in order to accept partial year permits.*

** **Proof of BC residency must be provided** and the student **must reside with parents** in order to receive the government grant.*

** Proof of valid permit must be provided **before Sept 1st** for the following school year. We cannot accommodate mid-year status changes based on government funding requirements and reporting.*

** ELL assessments will be administered as part of the placement process for students transferring from international schools where English was not the language of instruction, or if they are from homes where English is not the primary language.*

** Additional **EAL supports and fees** are subject to change in any and all categories if families are here on short-term permits, or if ELL assessment indicates it is needed.*

Short-Term High School Program (Oct – June)

Two to Six-Month Programs

We are pleased to offer short-term programs and homestay placements for immersion experiences.
